The extensively revised and updated 6th edition of the neonatal resuscitation program NRP textbook is designed in accord with the program's curriculum changes and sharpened focus on active hands on learning. The text facilitates the newly recommended self paced learning approach. Self study is optimized to help students prepare for the mandatory online examination that replaces the traditional written test. It also complements the simulations and case based scenarios at the heart of the new NRP content updates. Throughout the text reflect the 2010 American Academy of Pediatrics (AAP) American Heart Association guidelines for neonatal resuscitation. Must know new material includes the latest recommendations across key areas of change including revisions in the NRP flow diagram, elimination of evaluation of amniotic fluid in initial rapid assessment, use of supplemental oxygen during neonatal resuscitation, use of pulse oximetry, chest compression procedures.

New extensive revisions throughout text includes detailed objectives for every chapter, expanded content on bariatrics and updates to chapters including scene operations and safety, neurologic, trauma, patient safety and shock. New real life scenarios with updated technology demonstrate how to apply concepts to scenarios similar to those you'll encounter in practice. New focus on interprofessional and collaborative nature of transport emphasizes the importance of teamwork in ensuring successful patient outcomes. New Evolve site with 350 questions and answers mapped to the CRN, CTRN provide additional online preparation.

Expertly authored by prominent members of the field, this text presents the scientific basis for the clinical diagnosis and management of CPR. Provides comprehensive coverage of pulmonary failure, neuronal failure, acute myocardial infarction, as well as ethical and legal aspects of CPR and more.
